PYTHAGORA® CERAMIC CROSSFLOW FILTER FOR LEES

Cuts down on filtration issues and costs

Our PYTHAGORA® line is the all-in-one solution for cutting filtration costs and times in the winery. The ceramic membranes recover considerable quantities of wine, while also being environmentally-friendly: no more filtration aids, fossil flours, cartridges or filtering layers which require constant replacement and disposal.

Replaces the main types of filtration

- PRE-COAT
- VACUUM
- SHEET
- DISK
- CARTRIDGE
- HOLLOW FIBRE CROSSFLOW

Just one filter for

- MUSTS
- WINES
- FERMENTATION LEES
- CLARIFICATION SEDIMENT
- FLOTATION LEES

**FROM 1000 TO 0.9 NTU IN
A SINGLE FILTRATION**

**PYTHAGORA® CERAMIC CROSSFLOW FILTER
FOR LEES**

Cuts down on filtration issues and costs
